

**Generación Mediterránea S.A. and Central Térmica Roca S.A.  
11% Senior Secured Notes due 2031**

BUENOS AIRES, Argentina. April 30, 2025.

Generación Mediterránea S.A. (“GMSA”) and Central Térmica Roca S.A. (“CTR” and, together with GMSA, the “Companies”), make reference to their 11% Senior Secured Notes due 2031 (the “Notes”). The Companies announced today that they would not make the interest payment on the Notes due on May 5, 2025. As set forth in the indenture under which the Notes were issued, a failure to pay interest on the Notes that continues following the 30-day grace period as from the date when such payment is due may result in an Event of Default under the Notes.

The Companies are considering different alternatives to promptly resolve this situation, while aiming to prioritize the continuing operation of their business and preserving the interest of their creditors.
